In this day and age, the ceramic industry is prospering at the speed of light. The major driving force here is evolution and progress in the technological and innovation front and an interesting thing to note here is, India is not lacking behind in this regard. It is the 3rd largest consumer for ceramic tiles in the world.

This gracious growth rate has been observed due to the immense popularity of tiles as a decor element and that has happened because of the availability of unique and distinctive tiles. One of the key players for driving this innovation is oasis. At oasis, growth is fueled by dream and desires. For us our clients are not profit giving entities, they are our growth-causing partners.

We always aim at serving class apart products and providing satisfying services that can work as wholesome tiling solutions. To do so effectively, we rely upon our highly skilled and experienced working brigade that works day in day out under the constant guidance of prudent visionaries. Our major strengths include our in-house R&D department that allows us to come up with innovative and reliable solutions. To put those solutions into practice, we have got on board, latest technology, and machinery that we source from Italy and Spain. These parameters have helped us to gain a massive growth rate since, in the year 2006, we had commenced with the production capacity of 500 sq. mtr. per day and today, it has reached to 55,00 sq mtr. per day. We also run a Sanitary- Ware plant with a total production capacity of 30,000 pieces per month.

All in all, with an extensive range of High Gloss Glazed Vitrified Tiles, Glazed Vitrified Tiles, Glazed Outdoor Vitrified Tiles, Full Body Vitrified Tiles, Double Charge Vitrified Tiles, Glazed Ceramic Wall Tilea and exclusive Sanitaryware collection, we are en route to fulfilling your own dream.
